

Privacy Policy

We at indiaadvantage.co.in hereby acknowledge and accept that we use an advanced 128 bit encryption technology, the Secure Socket Layer (SSL), which is one of the best available technology to ensure that the information transmitted between you and us across the Internet is safe and cannot be accessed by any outsider.

To ensure security of access to the personal information and transaction details, the access to the secured zone of our website is restricted by the unique login ID and Password selected by you. You should be very careful in handling the ID and password and you should ensure that you do not reveal it to anybody, nor do you keep it in writing. You should keep changing your password periodically. As a matter of precaution, we always give the details of your last login each time you log on to our site. In case you feel that the detail is not matching with your last login profile, it should give you an indication that somebody has been able to crack your login and password and is having unauthorised access to your details. In such circumstance, you should immediately change the password and also inform us about it.

You should ensure that each time you leave your terminal you log yourself out. This prevents someone else from accessing your account if you leave your computer and your session has not "timed out"

We encourage you to review the privacy statements of other Web sites to which links may be provided through indiaadvantage.co.in so that you are aware of the privacy policies of these web sites too. We are not responsible for the privacy statements or other content on web sites outside of those of indiaadvantage.co.in .
