RISK DISCLOSURE DOCUMENT

The Exchange does not expressly or impliedly, guarantee nor make any representation concerning the completeness, the adequacy or accuracy of this disclosure documents nor has the Exchange endorsed or passed any merits of participating in the Commodity Derivatives market/trading. This brief statement does not disclose all of the risks and other significant aspects of trading. You should, therefore, study derivatives trading carefully before becoming involved in it.

In the light of the risks involved, you should undertake transactions only if you understand the nature of the contractual relationship into which you are entering and the extent of your exposure to risk.

You must know and appreciate that investment in commodity futures contracts/ derivatives or other instruments traded on the Commodity Exchange(s), which have varying element of risk, is generally not an appropriate avenue for someone of limited resources/ limited investment and/ or trading experience and low risk tolerance. You should, therefore, carefully consider whether such trading is suitable for you in the light of your financial condition. In case, you trade on the Exchange and suffer adverse consequences or loss, you shall be solely responsible for the same and the Exchange shall not be responsible, in any manner whatsoever, for the same and it will not be open for you to take the plea that no adequate disclosure regarding the risks involved was made or that you were not explained the full risk involved by the concerned member. The Client shall be solely responsible for the consequences and no contract can be rescinded on that account.

You must acknowledge and accept that there can be no guarantee of profits or no exception from losses while executing orders for purchase and/or sale of a commodity derivatives being traded on the Exchange.

It must be clearly understood by you that your dealings on the Exchange through a member shall be subject to your fulfilling certain formalities set out by the member, which may, inter alia, include your filing the know your client form and are subject to Rules, Byelaws and Business Rules of the Exchange guidelines prescribed by FMC from time to time and circulars as may be issued by the Exchange from time to time.

The Exchange does not provide or purport to provide any advice and shall not be liable to any person who enters into any business relationship with any member of the Exchange and/ or third party based on any information contained in this document. Any information contained in this document must not be construed as business advice/ investment advice. No consideration to trade should be made without thoroughly understanding and reviewing the risks involved in such trading. If you are unsure, you must seek professional advice on the same.

In considering whether to trade, you should be aware of or must get acquainted with the following:-

1. Basic Risks involved in the trading of Commodity Futures Contracts and other Commodity Derivatives Instruments on the Exchange.

i. Risk of Higher Volatility

Volatility refers to the dynamic changes in price that commodity derivative contracts undergo when trading activity continues on the Commodity Exchange. Generally, higher the volatility of a commodity derivatives contract, greater is its price swings. There may be normally greater volatility in thinly traded commodity derivatives contracts than in actively traded commodities/ contracts. As a result of volatility, your order may only be partially executed or not executed at all, or the price at which your order got executed may be substantially different from the last traded price or change substantially thereafter, resulting in real losses.

ii. Risk of Lower Liquidity

a. Liquidity refers to the ability of market participants to buy and/ or sell commodity derivative contract expeditiously at a competitive price and with minimal price difference. Generally, it is assumed that more the number of orders available in a market, greater is the liquidity. Liquidity is important because with greater liquidity, it is easier for investors to buy and/ or sell commodity derivatives contracts swiftly and with minimal price difference and as a result, investors are more likely to pay or receive a competitive price for commodity derivative contracts purchased or sold. There may be a risk of lower liquidity in some commodity derivative contracts as compared to active commodity derivative contracts. As a result, your order may only be partially executed, or may be executed with relatively greater price difference or may not be executed at all.

b. Buying/ Selling without intention of giving and/ or taking delivery of certain commodities may also result into losses, because in such a situation, commodity derivative contracts may have to be squared-off at a low/ high prices, compared to the expected price levels, so as not to have any obligation to deliver/ receive such commodities.

iii. Risk of Wider Spreads

- a. Spread refers to the difference in best buy price and best sell price. It represents the differential between the price of buying a commodity derivative and immediately selling it or vice versa. Lower liquidity and higher volatility may result in wider than normal spreads for less liquid or illiquid commodities/ commodity derivatives contracts. This in turn will hamper better price formation.

iv. Risk-reducing orders

- a. Most of the Exchanges have a facility for investors to place "limit orders", "stop loss orders" etc. Placing of such orders (e.g. "stop loss" orders or "limit" orders) which are intended to limit losses to certain amounts may not be effective many a time because rapid movement in market conditions may make it impossible to execute such orders.
- b. A "market" order will be executed promptly, subject to availability of orders on opposite side, without regard to price and that while the customer may receive a prompt execution of a "market" order, the execution may be at available prices of outstanding orders, which satisfy the order quantity, on price time priority. It may be understood that these prices may be significantly different from the last traded price or the best price in that commodity derivatives contract.
- c. A "limit" order will be executed only at the "limit" price specified for the order or a better price. However, while the client received price protection, there is a possibility that the order may not be executed at all.
- d. A stop loss order is generally placed "away" from the current price of a commodity derivatives contract, and such order gets activated if and when the contract reaches, or trades through, the stop price. Sell stop orders are entered ordinarily below the current price, and buy stop orders are entered ordinarily above the current price. When the contract approaches pre-determined price, or trades through such price, the stop loss order converts to a market/limit order and is executed at the limit or better. There is no assurance therefore that the limit order will be executable since a contract might penetrate the predetermined price, in which case, the risk of such order not getting executed arises, just as with a regular limit order.

v. Risk of News Announcements

- a. Traders/Manufacturers make news announcements that may impact the price of the commodities and/or commodity derivatives contracts. These announcements may occur during trading and when combined with lower liquidity and higher volatility may suddenly cause an unexpected positive or negative movement in the price of the commodity/ commodity derivatives contract.

vi. Risk of Rumours

- a. Rumours about the price of a commodity at times float in the market through word of mouth, newspaper, websites or news agencies, etc., the investors should be wary of and should desist from acting on rumours.

vii. System Risk

- a. High volume trading will frequently occur at the market opening and before market close. Such high volumes may also occur at any point in the day. These may cause delays in order execution or confirmation.
- b. During periods of volatility, on account of market participants continuously modifying their order quantity or prices or placing fresh orders, there may be delays in execution of order and its confirmation.
- c. Under certain market conditions, it may be difficult or impossible to liquidate a position in the market at a reasonable price or at all, when there are no outstanding orders either on the buy side or the sell side, or if trading is halted in a commodity due to any action on account of unusual trading activity or price hitting circuit filters or for any other reason.

viii. System/ Network Congestion

- a. Trading on the Exchange is in electronic mode, based on satellite/ leased line communications, combination of technologies and computer systems to place and route orders. Thus, there exists a possibility of communication failure or system problems or slow or delayed response from system or trading halt, or any such other problem/glitch whereby not being able to establish access to the trading system/network, which may be beyond the control of and may result in delay in processing or not processing buy or sell orders either in part or in full. You are cautioned to note that although these problems may be temporary in nature, but when you have outstanding open positions or unexecuted orders, these represent a risk because of your obligations to settle all executed transactions.

2. As far as Futures Commodity Derivatives are concerned, please note and get yourself acquainted with the following additional features:-

Effect of "Leverage" or "Gearing":

- a. The amount of margin is small relative to the value of the commodity derivatives contract so the transactions are 'leveraged' or 'geared'. Commodity Derivatives trading, which is conducted with a relatively small

amount of margin, provides the possibility of great profit or loss in comparison with the principal investment amount. But transactions in commodity derivatives carry a high degree of risk. You should therefore completely understand the following statements before actually trading in commodity derivatives contracts and also trade with caution while taking into account one's circumstances, financial resources, etc.

- b. Trading in Futures Commodity Derivatives involves daily settlement of all positions. Every day the open positions are marked to market based on the closing price. If the closing price has moved against you, you will be required to deposit the amount of loss (notional) resulting from such movement. This margin will have to be paid within a stipulated time frame, generally before commencement of trading on the next day.
 - c. If you fail to deposit the additional margin by the deadline or if an outstanding debt occurs in your account, the Member of the Exchange may liquidate/square-up a part of or the whole position. In this case, you will be liable for any losses incurred due to such square-up/ Close Outs.
 - d. Under certain market conditions, an Investor may find it difficult or impossible to execute the transactions. For example, this situation can occur due to factors such as illiquidity i.e. when there are insufficient bids or offers or suspension of trading due to price limit or circuit breakers etc.
 - e. Steps, such as, changes in the margin rate, increase in the cash margin rate etc. may be adopted in order to maintain market stability. These new measures may be applied to the existing open interests. In such conditions, you will be required to put up additional margins or reduce your positions.
 - f. You must ask your Member of the Exchange to provide the full details of the commodity derivatives contracts you plan to trade i.e. the contract specifications and the associated obligations.
- 3. TRADING THROUGH WIRELESS TECHNOLOGY OR ANY OTHER TECHNOLOGY: Any additional provisions defining the features, risks, responsibilities, obligations and liabilities associated with commodities trading through wireless technology or any other technology should be brought to the notice of the client by the member.**
- 4. General**
- i. **Deposited cash and property:**
You should familiarize yourself with the protections accorded to the money or other property you deposit particularly in the event of a firm become insolvent or bankrupt. The extent to which you may recover your money or property may be governed by specific legislation or local rules. In some jurisdictions, property, which has been specifically identifiable as your own, will be pro-rated in the same manner as cash for purposes of distribution in the event of a shortfall. In case of any dispute with the Member of the Exchange, the same shall be subject to arbitration as per the Rules, Bye-laws and Business Rules of the Exchange.
 - ii. **Commission and other charges:**
Before you begin to trade, you should obtain a clear explanation of all commissions, fees and other charges for which you will be liable. These charges will affect your net profit (if any) or increase your loss.
 - iii. For rights and obligations of the Members/Authorised Persons/ clients, please refer to Annexure 3
 - iv. The term 'Constituent' shall mean and include a Client, a Customer or an Investor, who deals with a member for the purpose of trading in the commodity derivatives through the mechanism provided by the Exchange.
 - v. The term 'member' shall mean and include a Trading Member or a Member/Broker, who has been admitted as such by the Exchange and got a Unique Member Code from FMC.

8. Ensure that the Contract Note contains all the relevant information such as Member Registration Number, Order No., Order Date, Order time, Trade No., Trade rate, Quantity, Arbitration Clause, etc.
9. Obtain receipt for collaterals deposited with the Member towards margins.
10. Go through the Rules, Bye-laws, Regulations, Circulars, Directives, Notifications of the Exchange as well as of the Regulators, Government and other authorities to know your rights and duties vis-à-vis those of the Member.
11. Ask all relevant questions and clear your doubts with your Member before transacting.
12. Insist on receiving the bills for every settlement.
13. Insist on Monthly statements of your ledger account and report any discrepancies in the statement to your Member within 7 working days. In case of unsatisfactory response report the discrepancy to the Exchange within 15 working days from the date of cause of action.
14. Scrutinize minutely both the transaction & holding statements that you receive from your Depository Participant.
15. Keep Delivery Instruction Slips (DIS) book issued by DPs in safe possession.
16. Ensure that the DIS numbers are preprinted and your account number (UCC) is mentioned in the DIS book.
17. Freeze your Demat account in case of your absence for longer duration or in case of not using the account frequently.
18. Pay required margins in time and only by Cheque and ask for receipt thereof from the Member.
19. Deliver the commodities in case of sale or pay the money in case of purchase within the time prescribed.
20. Understand and comply with accounting standards for derivatives.
21. Ensure to read, understand and then sign the voluntary clauses, if any, agreed between you and the Member.
Note that the clauses as agreed between you and the Member cannot be changed without your consent.
22. Get a clear idea about all brokerage, commissions, fees and other charges levied by the Member on you for trading and the relevant provisions/ guidelines specified by FMC/Commodity exchanges.
23. Make the payments by account payee cheque in favour of the Member. Ensure that you have a documentary proof of your payment/deposit of commodities with the Member, stating date, commodity, quantity, towards which bank/ demat account such money or commodities (in the form of warehouse receipts) deposited and from which bank/ demat account.
24. The payout of funds or delivery of commodities (as the case may be) shall not be made to you within one working day from the receipt of payout from the Exchange, in case you have given specific authorization for maintaining running account to the member. Thus, in this regard, the running account authorization provided by you to the Member shall be subject to the following conditions:
 - a) Such authorization from you shall be dated, signed by you only and contains the clause that you may revoke the same at any time.
 - b) You need to bring any dispute arising from the statement of account to the notice of the Member in writing preferably within 7 (seven) working days from the date of receipt of funds/commodities or

statement, as the case may be. In case of dispute, refer the matter in writing to the Investors Grievance Cell of the relevant Commodity exchanges without delay.

- c) In case you have not opted for maintaining running account and pay-out is not received on the next working day of the receipt of payout from the exchanges, please refer the matter to the Member. In case there is dispute, ensure that you lodge a complaint in writing immediately with the Investors Grievance Cell of the relevant Commodity exchange.
- d) Please register your mobile number and email id with the Member, to receive trade confirmation alerts/details of the transactions through SMS or email, by the end of the trading day, from the commodity exchanges.

25. You should familiarize yourself with the protection accorded to the money or other property you may deposit with your member, particularly in the event of a default in the commodity derivatives market or the member becomes insolvent or bankrupt.

26. Please ensure that you have a documentary proof of having made the deposit of such money or property with the member, stating towards which account such money or property deposited.

27. In case your problem/grievance/issue is not being sorted out by concerned Member/Authorised Person then you may take up the matter with the concerned Commodity Exchange. If you are not satisfied with the resolution of your complaint then you can escalate the matter to FMC.
